

Jordanian Journal of Computers and Information Technology (JJCIT)

The Jordanian Journal of Computer and Information Technology (JJCIT) is an international journal that publishes original, high-quality and cutting edge research papers on all aspects and technologies in ICT fields.

JJCIT is hosted by Princess Sumaya University for Technology (PSUT) and supported by the Scientific Research Support Fund in Jordan. Researchers have the right to read, print, distribute, search, download, copy, or link to the full text of articles. JJCIT permits reproduction as long as the source is acknowledged.

AIMS AND SCOPE

The JJCIT aims to publish the most current developments in the form of original articles and review articles in all areas of Telecommunications, Computer Engineering and Information Technology and make them available to researchers worldwide.

The JJCIT focuses on topics including, but not limited to: Computer Engineering & Communication Networks, Computer Science & Information Systems and Information Technology and Applications.

"Opinions or views expressed in papers published in this journal are those of the author(s) and do not necessarily reflect those of Editorial Board, the host university or the policy of the Scientific Research Support Fund".

"ما ورد في هذه المجلة يعبر عن آراء الباحثين ولا يعكس بالضرورة آراء هيئة التحرير أو الجامعة أو سياسة صندوق دعم البحث العلمي".

EDITOR'S NOTE

It is a great honor for me to head the Editorial Board of the Jordanian Journal of Computers and Information Technology (JJCIT). The Editorial Board consists of a group of distinguished colleagues who have a well-recognized research record.

This issue is the first published by JJCIT. We have started our first call for papers in May 2015. The submitted manuscripts have undergone a strict review process in which, at least, three specialized reviewers with well-recognized research track in the subject area reviewed each manuscript. While we received 19 manuscripts, just five papers were accepted and are published in this issue.

I would like to sincerely thank all authors who submitted their latest research work to JJCIT. I also would like to thank all the reviewers of the Journal for their efforts to ensure a very high quality review process while keeping a reasonable timelines for submitting their reviews and recommendations. It is through their voluntarily work that the high standard of this Journal is established and maintained.

I hope to receive from all potential authors, readers and researchers their opinions, suggestions and comments at (jjcit@psut.edu.jo). My colleagues in the Editorial Board and I are very willing to adopt new ideas and thoughts that may be sent to us to improve the content quality and journal presentation.

Editor-in-Chief

Ahmad Hiasat
