

## Jordanian Journal of Computers and Information Technology (JJCIT)

The Jordanian Journal of Computers and Information Technology (JJCIT) is an international journal that publishes original, high-quality and cutting edge research papers on all aspects and technologies in ICT fields.

JJCIT is hosted by Princess Sumaya University for Technology (PSUT) and supported by the Scientific Research Support Fund in Jordan. Researchers have the right to read, print, distribute, search, download, copy or link to the full text of articles. JJCIT permits reproduction as long as the source is acknowledged.

### AIMS AND SCOPE

The JJCIT aims to publish the most current developments in the form of original articles and review articles in all areas of Telecommunications, Computer Engineering and Information Technology and make them available to researchers worldwide.

The JJCIT focuses on topics including, but not limited to: Computer Engineering & Communication Networks, Computer Science & Information Systems and Information Technology and Applications.

### INDEXING

JJCIT is indexed in:

- ScopeMed: [www.scopemed.org](http://www.scopemed.org)
- Index Scholar: [www.indexscholar.com](http://www.indexscholar.com)

### EDITORIAL BOARD SUPPORT TEAM

#### LANGUAGE EDITOR

Haydar Al-Momani

#### EDITORIAL BOARD SECRETARY

Eyad Al-Kouz

### JJCIT ADDRESS

"Opinions or views expressed in papers published in this journal are those of the author(s) and do not necessarily reflect those of the Editorial Board, the host university or the policy of the Scientific Research Support Fund".

"ما ورد في هذه المجلة يعبر عن آراء الباحثين ولا يعكس بالضرورة آراء هيئة التحرير أو الجامعة أو سياسة صندوق دعم البحث العلمي".

## **EDITOR'S NOTE**

This issue is a special one, dedicated to the 2015 IEEE Jordan Conference on Applied Electrical Engineering and Computing Technologies (AEECT 2015). AEECT 2015 is a listed IEEE conference and is the third of a series of conferences organized by the IEEE – Jordan Section. This year, AEECT has been jointly organized with Princess Sumaya University for Technology (PSUT). The authors of papers that were rated as the best in the tracks of Computers & Networks, IT Applications & Systems and Communications were invited to submit an extended version of their papers and research results to JJCIT.

Nevertheless, the same criteria of high quality, originality and significance of research results that are part of the Journal's policy have been applied to the invited articles in this Special Issue. All submitted manuscripts have undergone a very rigorous peer review process, based on initial Editorial Board screening and reviewing by at least three expert reviewers. The acceptance rate of the invited papers was 63%.

I would like to take this opportunity to sincerely express my thanks and gratitude to all the reviewers of the Journal for their remarkable efforts to guarantee a timely review and a high-quality process. Moreover, I would like to thank the Editorial Board's Secretary Mr. Eyad Al-Kouz and the Language Editor Mr. Haydar Al-Momani for their commitment, efforts and the professionalism they have shown at the highest level to establish and maintain the high standard and quality of the Journal.

While JJCIT released its first issue late last year, three issues will be released in 2016; April's issue, August's and December's. Starting 2017, we are expecting to reach our steady state of publishing four issues per annum; that is, one issue per quarter.

My colleagues in the Editorial Board and I are still and will continue to eagerly receive your ideas and thoughts to improve the content quality and Journal presentation at the email of the Journal.
